

## Corporate discounts on our bestselling 'Lean Six Sigma and Minitab' Pocket Guide

### Introducing our corporate discounts:

Our corporate discount provides at least **25% discount** on all orders placed – **even for just one copy**. The same discount applies to the 'Six Sigma Tool Finder' software.

### How to qualify for the corporate discount:

To qualify, an organisation must have purchased at least 100 copies of the pocket guide directly from OPEX Resources (past orders from QSB Consulting will be counted towards this total).

If an initial purchase of 100 copies is made, then the 25% discount will be applied immediately to that order and to all future orders.

### How it works after qualification:

Ordering with our corporate discount is easy:

- Go to our online shop at [www.opexresources.com/orders](http://www.opexresources.com/orders)
- Select the *Corporate Discount Orders* button (right hand side)
- On the next page, select your organisation from the Corporate Discount drop down list.
- Proceed with your order – the discount is applied automatically.

We will provide a PDF document that can be distributed to all employees with full details of how to order.
